

Determinants of Youth Employment

Diego Del Pilar

December 4, 2019

Background

- Youth employment is a major concern of developing countries governments
- Young people are up to 4x more likely than adults to be unemployed
- In developing countries, 85% of jobs taken by Y belong to informal markets
- A quarter of the Y cannot find a salary above extreme poverty line, \$1.25 per day
- But Y are dissatisfied with their employment situation (rural & agricultural)
- Main reason for wanting to change: low pay, temporary nature of employment & poor working conditions

Problem statement

Problem statement and Background

3. Methods to use

Methods you explored or considered using.

4. Methods used so far

The methods/tools you used, and the rationale for their use.

5. Methods used so far

The methods/tools you used, and the rationale for their use.

6. Results

Show main visuals, analyses/tables, and/or any products built (interactive graphics, websites, etc.)

7. Results

Show main visuals, analyses/tables, and/or any products built (interactive graphics, websites, etc.)

8. Results

Show main visuals, analyses/tables, and/or any products built (interactive graphics, websites, etc.)

10. Lessons learned & plans to face challenges
